MODERATION

With nothing new, and without the use of steam and gas, we are still making Daguericotype pictures in the perfection of the art. With eleven years of experience, we have not accurantly improvements, which will improve the bold, distinct, both face and drapery of the sunlight pictures. If the public will examine for themselves, we believe they can easily decide where the best Daguericotype's can be had.

We advertise to take pictures for \$1.60, and if thay are not equal to any that can be procured in the city, we will make them presents.

At the Boor and Picture Gallery, over Isase Cromie's paperstore, No. 199, Main st., can be seen specimens of our work.

WHATEVER concerns the beaith and happiness o.

Whe people is at all times of the most valuable importance. I take it for granted that every person will do sill in their power to save the lives of their children, and that every person will endeavor to promote their own health at all earlfices. I feel it my duly to selembly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of disease to which children and adults are liable. If you have an appetite continually changeable from one kisd of food to snother, Bad Bresth, Pain in the Stomsch, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Pever, Pulse irregular—remember that all those denote WORMS, and you should at once apply the remedy—

HOBENSACK'S WORM SYRUP. An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect, where Bowel Complaints and Diarrhes have made them west and debilitated, the Tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of madiciaca, in giving tons and stieneth to the Stonach, which that it stands without an equal in the catalogue of madicinea, in giving tons and strength to the Stomach, which makes it an Infallible Remedy for those afflicted with Dreffers. The astomishing cures performed by this Sylay, after physicians bave failed, is the best evidence of its superior efficacy over all others.

THE TAPE WORM,

THE TAPE WORM,

This is the most officult Worm to destroy of slit that infeat the human system; it grows to an aimost indefinite length, becoming so coiled and fastened in the Intestines and stomach, effecting the hesith so sadiy as to cause St. Vitus Dance, Fits, &c., and those afflicted scidom if ever suspect that it is TAPE Wough hesically been to an early grave. In order to destroy this Worm, a very energetic treatment must be pursued; it would, therefore, be proper to take 6 or 8 of my Liver Pills, so as to remove all obstructions, that the Worm Syrup may set direct upon the Worm, which must be taken in doses of two table-spoonfuls three times a day. These directions followed have never been known to fail in curing the most obstinate case of TAPE WORM.

And you cannot be indifferent to this appeal. Hu isnity calls upon you to do your duty. It is only on-

out of the many thousands who have seen its wondering effects

Da. 5. N. Hobensack—Si: Greatitude to you, the in vantor of a highly valuable medicine, prompta this humble testimony in its favor, as being a saie, gentle, vet powerfully effectual remedy for Worms. Having had much experience in knowing the effects of various preparations, my wife, who was well skilled in ministering to children in distress, prononneed it the best she had ever used, and would use no other while yours could be hard.

A daughter of oure became seriously diseased. Her symptoms were alarming, but her mother at once sought for a remedy for Worms. Having obtained yours, hy the time she had taken half a hettle, Ol Sir, the joy it gave an affectionate mother, to see the improvement in her child, she heing about five or six years old. She passed an immense quantity of Worms, her sickly coun tenance now brightened, her spirits returned, and in a short time a lovely child, threatesed with decilne and death, now gave promise of health. Thanks to a kind Providence, whose hiessing attending your Syrup, restored the child. With confidence I recommend it to all parents whose children are suffering with Worms.

Compound Sirup of Sarsaparilla and 1713

Versicola.

In this age of humbuggery, it behooves every one to guard with a suspicious eye the interests of individuals and cliquea. And even then the dazzling splendor of outward show insinuates listelt into the tavor of many, and they become willing dupes to unholy ends. Thus it is we see Mesmcrism, Clarvoyance, and Spiritual Rappings, absorbing too much of the attention of rational and intelligent beings, even to the dethicining of their supreme intelligence. All feeling an interest in their own, and the welfare of the community, and in the forther extension of that which is useful, we would recommend to their serious consideration Dr. Backwellt Compound Sirup of Sarsaparitle and Iris Versicoia, and request the same investigation, by way of trial, that has been extended to other objects of less importance. He asserts its superiority to any similar compound everyet introduced, and defects the public to produce its equation to the strength of the cure of the following diseases: Scrofula, or King's Rvil, Dispepsia, Jaundice, Fennate Diseases, Eruptions of the Skir, Swelled Glands, and all diseases arising from an impure state of the blood.

A AFER 43 YEARS' SUPPREING.—Extract of a Letter from Mr. Wm. Galpin, of 70, St. Mary's street, Weymouth, dated May 15th, 1851.

To Professor Hollowsy—Sha: At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that nedleat men advised was tried, but without effect; her health anfered severely, and the stale of her legs was terrible. I had often read your advertisements, and advised her to try your Plils and Ointment; and, as a last recourte, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are palniess, without aeam or sors, and her sleep sound and undisturbed. Could you have witnessed the suffrings of my wife during the last 3 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

Copy of a Letter from Mr. William Abbe, Builder of Case
Ovens, of Rushcliffe, near Buddersfield,
dated May 31st, 1861.

To Professor Holloway,
Sin: I suffered for a period of thirty years from a badleg, the result of two or three dinerent accidents at Gas Works, accompanied by scorbutte symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even tool that the leg must be amended. putated; yet, in opposition to that opinion, your Pilla and Ointment have effected a complete one in so short a time, that few who had not witnessed it would credit the fact. (Signed) WILLIAM ABBS. The truth of this statement can be verified by Mr. W. P. Bogland, Chemist, 13 Market street, Hudderafield.

Extract of a Letter from Mr. Prederick Turner, of Penshurst, Kent, dated December 13th, 1850.

To Professor Holloway,
Dran Sia: My wife had suffered from bad bressts for more than six months, and during the whole period bad the best medical sttendsnee, but all to no use. Having hefore healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pilla and Ointment, and, therefore, gave them atrial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use Is really astoniablug. I now atrongly commend them to all my frends.
